### This is why NRI is Different...

NRI has proved its commitment by taking the students to Infosys Campus – Hyderabad and make the students become aware of how things are in a practical scenario.

NRITech Students undertake projects right from the first year. Projects are intended to inculcate the steps involved in taking an Idea from conception to reality. Project Teams are formed to cultivate the habit of working in interdisciplinary groups. Due priority is given to contribute individual talent for a team's success. Our First Year students have completed the following projects – Anatomy of a Modern Computer, Evolution and Anatomy of Computer Components, Multimedia Cart, and Display cases. The details of which are available at <http://www.nri.edu.in> for you to see.

Dear prospective students and parents,

NRI Institute of Technology (NRI Tech) is an Institute formed by the NRI Group of Institutions Society to promote higher technical education in Hyderabad, India. The society is proud to have a group of distinguished young NRI promoters, each of which are bestowed with exemplary education and industry experience both in India and the US. They bring with them a depth of knowledge, broad experience and informed wisdom. They bear in their hearts an intense desire to serve the homeland by streamlining quality education.

We believe that the education imparted at NRI Tech will open up numerous opportunities to the graduates of NRI Tech. We invite the students and parents to visit our college campus and find out for themselves our promises in practice; learn about the faculty and facilities and then decide which college to pursue the Engineering course in.

You will see in this Info booklet our promises, in word and practice, with the best of classroom infrastructure, faculty, and facilities, located in a sprawling campus ready to unfold the very best of learning processes. The college has pleasant atmosphere, far from the noise and bustle of city life. This much is assured that after you join us, you will, in the future, look back upon favorably the right decision you have taken.

From the Chairman's desk, I welcome you to join our NRI Institute of Technology to witness the NRI way of accomplishing goals.

Srinivas Bhupalam  
MS (US)  
Chairman

### CSE

#### The World of Data, Programs and Servers ...

The Computer Science and Engineering course continues to be the most sought after one. India is striving to occupy the centre stage of worlds' software Industry to serve the global corporate world. We at NRI Institute of Technology are committed to feed the industry with trained manpower suitable to handle the most intricate problems, leading the nation march to glory and success. NRI Tech has partnered with Microsoft IT Academy bringing in the most reliable and authentic software.

Our CSE Department has a team of well qualified faculty who teach not only the syllabus subjects but also the latest software that enable them to readily shoulder challenging jobs after leaving the campus.

### ECE

#### The World of Communication, Controls and Power Circuits...

The Electrical and Electronics knowledge is the backbone of almost every domestic and industrial sector that enable them achieve sophisticated breakthroughs leading to minimization in cost, energy consumption and size with out compromising in the aesthetic and ergonomic aspects of design.

The Institute has well established electronics labs and competent faculty to train the students of this specialization in such a way that by the end of their studies, they are capable of competing professionally any where in the world.

### Civil

#### The Skeleton of Human Excellences...

Half a century ago India was looking overseas for Civil Engineers. But ever since its freedom, the nation has been absorbing every scientific advancement and marching ahead. Dams, skyscrapers, airports and highways are being built indigenously and economically by the home grown civil Engineering Companies not only in India, but also in the neighboring countries.

NRI College provides the best faculty; lab facilities and field exposures to their students of this branch to enable them undertake confidently large projects anywhere in the world.

### Mechanical

#### The World of Engines, Machines and Robots...

Mechanical Engineering deals with many aspects of industries involving umpteen numbers of products like vehicles, planes, ships, machine tools etc, from nano level to mega level. Mechanical engineering is concerned with the design, development and manufacture of such machines.

The NRI Mechanical Engineering students are trained to come up with practical designs for all sorts of machines and structures - from skateboards to racing cars, from artificial heart valves to the state-of-the art wheelchairs etc.

### Aeronautical Engg

Seats-60

#### Carving Space in the Air...

An Aeronautical Engineering degree involves turning ideas into reality by applying the principles of science and technology to the research, design, manufacture and maintenance of highly sophisticated products such as aircraft, missiles, space satellites etc. All these products are the result of dedicated team efforts that bring together each aeronautical engineer's skills and technical expertise.

## The College Emanates its Self Evident Propensities

### Salient Features:-

#### Modern Classrooms

NRITech has ensured that all classrooms are well furnished with the latest teaching aids and are spacious and well ventilated. Students will find a conducive ambiance of study at NRITech.

#### Library

The library is fully functional with Digital Network, provides the latest editions of books, magazines, periodicals and Indian and International journals, to keep pace with the latest research and technological developments. The management believes that there can be no substitute to a good collection of books which are the only ways of climbing up the heights of academic achievements.

## The Best of Facilities:

- Infrastructure that meets International Standards
- Fully Wi-Fi and Internet enabled campus
- Modern, Congenial well Equipped Laboratories
- Highly Qualified and Experienced faculty

### Communication skills

We at NRI help our students master communication skills in both oral and written ways, team working, analytical skills and time management, all of which provide a sound basis for employment in their respective areas.

### Computer Centre on par with corporate training centre

The computer center has been designed and setup, like a corporate training center. It has a seating capacity for 70 students at a time. It is setup with latest computers with wide screen LCD displays, high-speed internet, multimedia projector, dedicated high-speed printers. We thrive to maintain high accessibility and hands-on learning experience.

### Sports

The Institute is equipped with all games and sports facilities. The extra curricular potential of the students is tested and rewarded every year on the occasion of Fresher's Day, Sports Day, Annual Day and Republic Day celebrations. The college campus has ample space to provide ground to both Indoor and Outdoor games.

Every year, these student fests are conducted as part of imparting an all round development to our students. In addition to these it is customary that Traditional Day is celebrated as part of an attempt to hold our values and traditions. The students are encouraged and guided to take part in competition building activities like Extempore talk and Aptitude Test.
